SUMMARY

I am a Full Stack Developer and Software Engineer focused on developing modern web applications and practical digital solutions. My technical toolkit includes JavaScript, TypeScript, React.js, Next.js, Node.js, and Python, with an interest in building responsive user interfaces, integrating APIs, and developing maintainable application functionality.

I contribute to web development initiatives associated with IntelligenceX.org, including ConsentX and RegulatoryBridge. I am interested in opportunities involving full-stack development, software engineering, and freelance projects where I can contribute to useful, reliable digital products.

TECHNICAL SKILLS

Languages & Web Technologies

JavaScript, TypeScript, Python, SQL, HTML5, CSS3

Frontend Development

React.js, Next.js, Tailwind CSS, Bootstrap, Redux Toolkit, Responsive web design, Reusable UI components

Backend Development

Node.js, Express.js, Python, Django, REST API development, API integration

Databases

PostgreSQL, Prisma

Testing & QA

Manual testing, API testing (Postman), Web testing

Tools & Workflow

Git, GitHub, VS Code, PyCharm, Postman, npm, Vercel

Data & Reporting

MS Excel, Power BI

PROFESSIONAL EXPERIENCE

Web Developer

AUG 2026 — PRESENT

SS IntelligenceX Private Limited · Managed by iLeads Auxiliary Services Pvt. Ltd. · Product: IntelligenceX.org

- Develop and maintain responsive web interfaces using modern frontend technologies.
- Implement reusable UI components and application functionality.
- Contribute to development initiatives associated with ConsentX and RegulatoryBridge.
- Integrate APIs and support communication between frontend and backend services.
- Troubleshoot technical issues and improve code maintainability.
- Contribute to ongoing product improvements and application development.

Technologies: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Node.js, Python

Software / QA and Data Support

SEP 2025 — JULY 2026

Tecxpert Software Pvt. Ltd.

- Supported software testing, quality assurance, data management, reporting and process-improvement activities.
- Helped coordinate tasks and resolve issues while maintaining focus on accuracy and delivery quality.

Technologies: Manual Testing, API Testing, MS Excel, Power BI

Data Entry & Document Verification Operator — SBI Credit Card JAN 2025 — JUN 2025

Alexis Global Pvt. Ltd.

- Entered and maintained customer application records with attention to accuracy and confidentiality.
- Verified customer documents against process requirements and coordinated resolution of discrepancies.

FREELANCE & INDEPENDENT DEVELOPMENT

Develop and explore web solutions through independent projects, portfolio development, and freelance-oriented work, with a focus on responsive interfaces, practical application functionality, and maintainable code.

Website development · Full-stack application development · API integration · Responsive UI implementation · Website maintenance · Debugging and performance improvements · Project planning and client communication

The projects below are self-directed builds rather than paid client engagements. I am open to freelance work.

PROJECTS

ConsentX.io 2026

A consent-focused digital solution designed to support consent management and privacy-related workflows.

Stack: React, Next.js, TypeScript, Tailwind CSS, Node.js, REST APIs

Contribution: Website development, responsive UI, user-facing functionality, testing, usability

consentx.io

RegulatoryBridge.com 2026

A regulatory-focused digital solution designed to organize compliance-related information and simplify regulatory workflows.

Stack: React, Next.js, TypeScript, Tailwind CSS, Node.js, REST APIs

Contribution: Website development, responsive design, feature refinement, debugging, testing, performance

regulatorybridge.com

Personal Portfolio Website 2026

A personal portfolio showcasing my technical expertise, selected projects, professional experience, and freelance development services.

Stack: Python (static site generator), HTML, CSS, vanilla JavaScript, GSAP, Lenis, Vercel serverless functions

Contribution: Design, build, content pipeline, contact API and deployment
